Luis Herrera

Cali, Valle del Cauca
1209@holbertonschool.com
3057128788

Cryptocurrency privacy-focused Monero (XMR) enthusiast. Focused in open-source software GNU/Linux operating systems since 2016.

Studied Software Engineering foundations at Holberton School Colombia with a high passion for blockchain technology.
Entrepreneur, adventurer, and eager to develop code for our world.

Experience in C, Python, and JavaScript programming languages, hand-coded HTML and CSS with MySQL database integration.

Work Experience

Communication Work-group Coordinator (Volunteer)

Monero
July 2018 to Present

Workgroup production coordinator. Organize translators, transcriptionist's workload and publish final content throughout the community.

Software Engineer

Rappi - Cali
May 2020 to June 2020

This project proposes a workforce based credit system, implementing technology and performance. The main goal is to facilitate fast loan access to workers based on their performance. We have two main participants.
Investors and workers. Investors invest in the loan system based on the worker's score and workers will have access to the loan depending on their performance.

Software Engineer

Holberton School - Cali
September 2019 to June 2020

Full-time programmer. Experience with C, Python, and Javascript programming languages, MySQL (SQLalchemy) database management, HTML, and CSS web frameworks.

During this project, we developed 3 low-level C programming & algorithms projects, 4 higher level Python and JavaScript programming projects, 8 system engineering DevOps projects, a Social Media profile, and our own portfolio project that was live transmitted through Facebook live. We also used MySQL as relational database management systems, SQLalchemy, RESTful, and JavaScript APIs and deployed virtual servers using Docker and hardware servers.

Database Analyst

EMCALI - Cali

September 2016 to February 2018

Database analyst. I also did the Geographic Information System software (GEOVISOR/MapInfo) colleagues training. My main task was to maintain the database information updated using the integrated OPEN-SmartFlex software. Databases were handled using Microsoft Excel crossed-based between different government official databases (FOSYGA, RUAF, DIAN, and PROCURADURIA).

Business Development Administrator

Productos Vrinda
February 2013 to May 2016

Production and service manager. My responsibilities were to cover the customer service area, staff planning, purchase, storage, and sales. I had to contact suppliers, make the financial accounting control, have resource optimization, and comply with quality standards and regulations of the food and beverage sector.
Georeferencer

Georeferencer

Servinformación - Cali
February 2010 to February 2013

Feb 2010 - Feb 2013 (3 years 1 month)
Homologue national property number in the company's databases to the EMCALI subscriber. I also made routing fieldwork through Geographic Information Systems (GIS). Geographic software layer control, collector supervisor, and location coordinates updates. Software: MapInfo, Excel, Access.

Commercial Director

Chef en Tu Casa - Cali
January 2012 to May 2012

Logistics, purchases, accounting, and cash management.

CSR

Kimeline
December 2010 to March 2011

Customer Service Representative

Education

School in Software Engineering
